## MAXIMILIAN STOLZE

Deep & Funky and Driving! These are just 3 words trying to describe Maximilian Stolze's Sound! Un-commercial, timeless and sound for connoisseurs of sophisticated electronic music.

After drifting into various kinds of HipHop and House music he finally came upon his current style: A bassline-driven jacking house sound with it's own explosive personality! No Question, Maximilian who is currently traveling through South America is one of the most technically skilled DJ's nowadays, playing classic with Vinyl and CD and without the need of a Laptop. These properties lead to Maximilian's popularity in a lot of national and international Clubs like Sisypheos (Berlin), Wax (Bangkok), The Egg (London), Tanzhaus West (Frankfurt), Romy S (Stuttgart), Antirouille (Montpellier) just to name a few! Since the beginning of this Year he also started to work a bit in the Studio and already has some own unreleased Tracks and Projects. His DJ sets begin very deep, build up a special tension, getting straighter and then keep on pushing forward! Dynamic and energy from start to finish!

It's his desire to give his audience the unparalleled listening pleasure which it deserves!
